Shipping Information

*Because these textbooks are made of durable (read heavy) material and because of their length, shipping costs will be high. We estimate that a pallet of books (43 cases, or 342 books) will cost \$1,000 to ship. We estimate that a case of 8 books will cost \$50 to ship and that individual books will cost \$10 to ship. **These are estimates only.** Actual costs may be different.*

School Districts and Curriculum Consortia: Please note that shipping is much less expensive by the pallet. For this reason, we encourage you to consolidate requests.

____ My school/district will pay to have books shipped to us. We understand the cost will be approximately ____ (number of books x the cost of shipping listed above).

I attest that this information is correct to the best of my knowledge. I also attest that I have the budget authority to authorize payment for shipping.
